followed by a launch of 'The  
Waking Incubator' publication.

Monday 17 October  
12-13.00  
Room 103  
Lunch box provided

The Waking Incubator is a  
unique collaborative project that  
combines the scientific study of  
sleep with the hyper-sentient  
disciplines of performance.  
Working across the breadth of  
knowledge from each domain,  
the project explores innovative  
new ways of understanding the  
transitions between sleeping and  
waking, creating a dialogue that  
offers new perspectives on the  
arts/science continuum.

# Sleep Science and Performing Arts in Dialogue
